

Missing Olivia

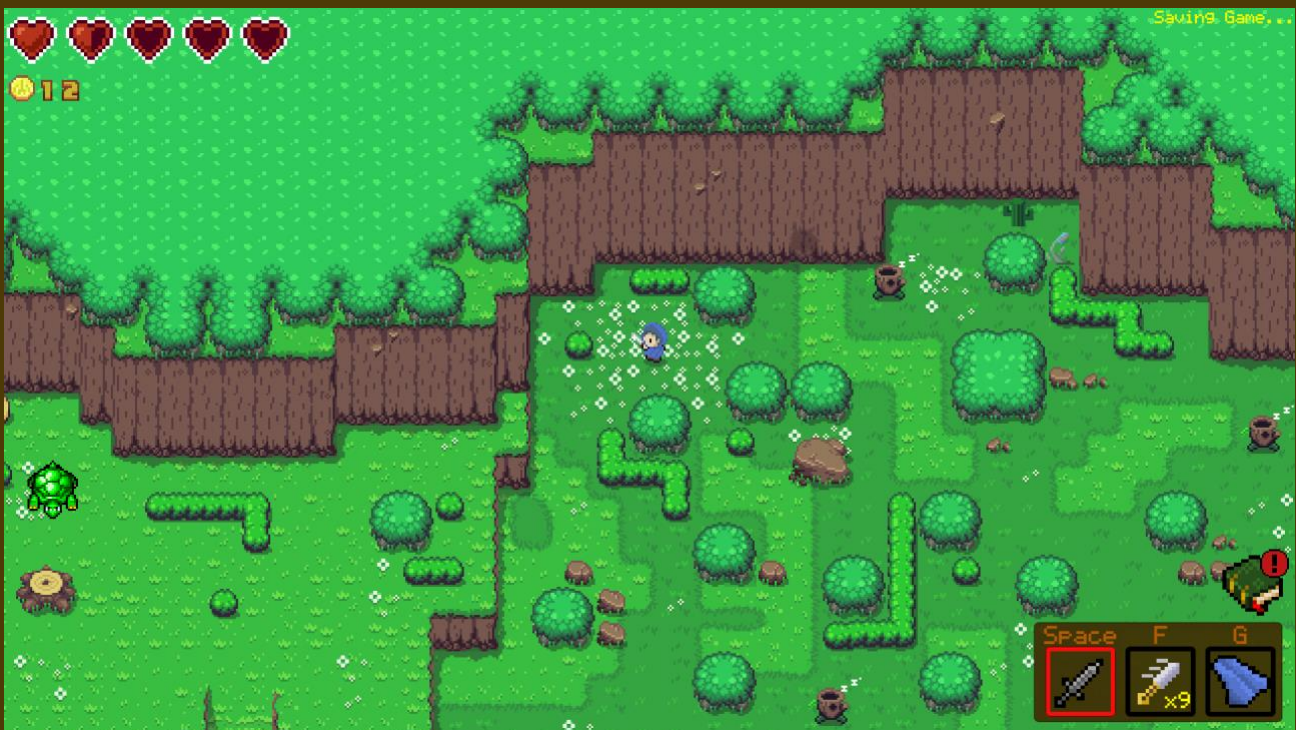

Quest Start:

Person: Denice Wayward

Location: Hamelin

Denice asks you to help find her Daughter who is missing. Her Daughter uses a toy sword in a large patch of flowers in ProcrastiForest.

Travel to ProcrastiForest. In the north-most part of it there is a large patch of flowers. Use your [Sword](#) there and a cave will open.

Inside the cave is some yucky water. Drinking it makes the log enemies no longer be aggressive towards you. I guess you won't find Olivia.
